“20/20 VISION MANAGEMENT”

by Diana Day Training

Creating An Effective & Concrete Behavior Management System for a Classroom
Drastically Reducing Referrals While Dramatically Improving Test Scores

Would You Like Consistent Behavior Management, Rigor, Relevance
and a Positive Culture Embedded Within Your Campus?

LEARN HOW TO:

Vision Management® is a comprehensive, research-based program that consists of specific brain-compatible strategies, techniques, skills, scripts and tools. When the practitioner implements Vision Management®, the result is a successful student who takes responsibility for his/her behavior having learned to self-manage.

Best of all, *Vision Management*® meshes seamlessly with existing management programs that lack substance and structure. As students are consistently held accountable for self-created goals, action steps and behavior, their ability to exhibit self-control improves. Coupled with the educator’s increased skill level, the result is reduced office referrals from 49% -87% with increased time on task & improved test results.
